# PMO STRATEGIES WORKSHOP

## Agenda

Organized by:  
**PMO STRATEGIES**

Hosted by:  
**CAI**  
Computer Aid, Inc.

### **Business Driven PMO with Mark Price Perry**

Learn why creating a business-focused PMO will skyrocket your success. Walk through the critical foundational building blocks necessary to create a PMO that will be cherished by the leadership team.

### **The Strategic Portfolio with Andy Jordan**

Understand how world class organizations put the portfolio first in their planning process and how that drives results. Gain practical insight into how to make it work in your organization to create effective strategy delivery.

### **Attaining Strategic Project Intelligence with John Bowen and Dave Smith**

Learn how to best incorporate required information to maximize the success of both individual and portfolios of projects through the automation of management information discovery. John will share strategy and Dave will outline putting this into practice and case study review.

### **Making the Portfolio Flow with Michael Hannan**

Learn industry leading techniques to apply simple, yet powerful flow-maximization principles to accelerate the delivery of results and generate dramatic jumps in portfolio performance.

### **Agile PMO with Jesse Fewell**

Learn a thoughtful approach to knowing when and how to incorporate Agile techniques into your PMO, work seamlessly with Agile teams, and drive even greater value across the organization.

### **Making it Real with Laura Barnard**

Create your IMPACT Delivery road map that addresses the likely hurdles that will come your way as you elevate your PMO. Gain the confidence to have the crucial conversations back at the office to make this plan a reality.

## Deep Dive Small Group Sessions

Get guidance on how to take action on your most important PMO improvement area.

**Don't miss your chance to register! Seats are limited!**
