Set a Solid Foundation and Mindset

To set the stage for IMPACT PMO success, we must start at home with ensuring we have the right mindset and understanding of our role in the PMO and the role the PMO needs to play in our organization. We are shifting our attention toward the bigger picture of organizational strategy, driving business agility, and going beyond the delivery of outputs to a laser-focus on **delivering outcomes** that drive **greater return on investment** for your organization's strategy.

I get it. I was a PMO leader for 15 years and have now spent the last 9 years helping PMO leaders AVOID the wasted time, energy, and frustration that can come from by falling into the traps that come from following the typical PMO guidance.

The typical advice will lead to the typical results.

With the harsh reality that nearly 50% of PMOs fail, it's easy to see why so many business leaders struggle to understand the value of PMOs - and why they are so quick to pull the plug on them.

What if you had everything you need to build a PMO that is critical to the success of your organization, and you had a proven system to build it quickly and with the support you need every step of the way?

That's exactly what I'm offering with this program.
