**Discover courses designed to build your individual capability and grow your team!**

# TRAINING PROGRAMS

## IMPACT Engine Practitioner Certification

Master the proven six-stage IMPACT Engine framework in this two-day workshop. Through case studies, group exercises, and practical tools, you'll learn to assess challenges, engage stakeholders, define high-IMPACT services, and build value-driven delivery plans.

## IMPACT Engine Fundamentals

Build the foundations to link your projects and PMO work to real organizational success. This one-day interactive course introduces the IMPACT Engine System™ and shows how your role drives strategy and bridge the common gaps in the strategy lifecycle to deliver meaningful results.

## IMPACT Driver Certification

Transform how project leaders deliver by equipping them with the mindset, tools, and techniques to connect project work directly to strategic outcomes. This program builds the confidence and capability to drive measurable results, influence executive priorities, and deliver lasting IMPACT.

## IMPACT Project Management

Learn the results-driven framework that helps project teams start with the end in mind so every project delivers maximum value. This practical approach ensures teams achieve business outcomes and return on investment—not just finish on time, on scope, and on budget.

## Project Management Institute CAPM/PMP

Certify your project managers while ensuring they apply what they learn. This practical, anti-bootcamp program bridges theory and real-world application so project leaders gain the skills and confidence to deliver success.

## Project Portfolio Accelerator

Boost outcomes and IMPACT across your portfolio—applying the right delivery methods, sustaining value cadence, managing due dates, re-baselining projects proactively, and keeping projects aligned for maximum IMPACT.

## Stakeholder Communications

Teaches project managers how to translate technical details into business value, ensuring stakeholders clearly see and support the project's IMPACT. This program shows how to speak the language of executives so that every conversation leads to alignment and progress.

## Engaging Sponsors

Build strong sponsor partnerships, overcome challenges, and sustain engagement. Create clear expectations and alignment that drive results. Learn how to leverage sponsor influence to deliver meaningful and lasting business outcomes.

## Mastering Project Sponsorship

Help sponsors lead confidently, collaborate effectively, and inspire teams. Learn how to engage at the right level in the project process to accelerate results instead of slowing progress. Strengthen alignment, engagement, and governance to deliver measurable business outcomes.
